President's Report

In September 2021 I was privileged and excited to be formally elected as president of this great club, after holding the position of committee member for the past two years.

A massive thank you to Adam Campbell who has shown great leadership and professionalism during his time as president. His vision for the club will continue to be implemented.

I am happy to announce an extra three people have joined our committee to help with the goals and objectives of Craigieburn Tennis Club.

Kind regards

Current Club Access

The Government restrictions on sporting and social activities have prevented members from using the courts and have also prevented the club from hiring out the courts or hall to members of the community.

While this has been very disappointing it has been necessary. Please keep an eye on the club website www.craigieburntc.org.au and the revamped club facebook page [Craigieburn Tennis Club | Facebook](#) to keep up to date on allowable access to the club facilities – the page has been set up as its own account so please take the time to friend the club page. Please remember to use the QR codes located at the club when access is restored as this is both a good safety measure and a legal requirement.

Competition Tennis

All competitions, senior and junior, have been put on hold for this season.

The club was extremely happy to be able to field a women's team in the NSNTA competition this season it was unfortunate that only one game was able to be played before the current lockdown was implemented. It was a successful return for our Ladies team with a win in the first round.

We currently have 6 Men's teams, 2 mixed teams and one Ladies team.
